

Antenna front end
(Microphone)
(Accelerometer)

```
graph LR; A["Antenna front end<br/>(Microphone)<br/>(Accelerometer)"] --> B["Analog-digital<br/>converter"]; B --> C["Digital<br/>Signal Processing"]
```

The diagram illustrates a three-stage signal processing system. It begins with an 'Antenna front end' block, which includes a 'Microphone' and an 'Accelerometer'. An arrow points from this block to a second block labeled 'Analog-digital converter'. A second arrow points from the converter block to the final block, 'Digital Signal Processing'.
